

## Guidelines and Expectations for students studying Spanish - Senor Przybylowicz

1. Arrive in class on time, quietly take your assigned seat and be prepared to work.
2. Each student should have a writing utensil and a notebook.
3. Your notebook is needed for taking notes and for certain assignments. These will be discussed, corrected and a part of your grade.
4. Everyone is expected and encouraged to participate. The participation grade will be part of your term grade. No one should be afraid to make a mistake. Practice makes perfect. Language learning involves a great deal of memorization, repetition and practice.
5. Students should not feel uncomfortable asking questions. It's part of the learning process.
6. Everyone will be expected to learn and use common basic vocabulary and expressions (greetings, Introductions, age, time, weather related expressions, etc.).
7. Get off to a good start. Participation in class and completion of assignments are two grades to aid you in reaching your goal of achieving a good grade as well as learning another language.
8. Extra help is available if needed. Take advantage of this opportunity.
9. ¡ Buena suerte! ( Good luck).
